

Alexia Gallon

Berkeley, CA 94704 • (714) 866 - 2388 • gallon.alexia@gmail.com • www.linkedin.com/in/alexia-gallon

EDUCATION

University of California, Berkeley **Political Science & Data Science B.A (Expected May 2026)**
3.7 GPA | *Relevant Courses:* Algorithms, Public Policy, and Ethics; Data/Computer Fundamentals; Quant Methods.
Certificates: Google Cybersecurity Certificate | CompTIA CySA+ | National Cyber League Certificate 2024

RESEARCH EXPERIENCE / PUBLICATIONS

Berkeley Risk and Security Lab (BRSL) **Berkeley, CA**
Research Apprenticeship *January 2025 - Present*
BRSL seeks to increase academic dialogue on the intersection of technology, security, and policy.

- Develop research briefs on current events and U.S. diplomatic relations for usage in conferences.
- Performed data collection and mining on emerging technology and U.S.-China relations over decades.
- Create detailed cover letters for articles on nuclear and conventional weapons lethality for missile silos.

Social Science Research Pathways (SSRP) **Berkeley, CA**
Research Assistant *September 2024 - May 2025*
Research: "Community-Based Organizations and the (Re)Definition of Social Problems", PhD candidate Dalke.

- Develop an OLS multivariate regression-based model to analyze shared characteristics between NPOs.
- Execute causal inference analyses to evaluate binary ideological framings of social issues.
- Conduct thorough data collection and draft weekly research memos on regional non-profit organizations.

Publication: "Racism Repeats Itself: AI Racial Bias in Predictive Policing Algorithms," *Think You?!*, Nov. 2023.
Developed a machine learning algorithm in Python to decrease racial disparities in existing PPAs on the market.

TECHNICAL/WORK EXPERIENCE

UC Berkeley Center for Long-Term Cybersecurity (CLTC) **Berkeley, CA**
Cyber Security Consultant *January 2025 – Present*
CLTC Consultants provide cyber assistance and public-interest technology to partnering organizations.

- Collaborate with a team of consultants to identify and address digital safety vulnerabilities of the client.
- Target virtual machines modelling the client's digital infrastructure through red-teaming attacks.

WeRepresent × PCS Collaboration **Berkeley, CA**
Research Developer *September 2024 – May 2025*
Built a data-led politician donation tool with a SF Startup to suggest candidates from user ideology and location.

- Designed and implemented AWS Lambda functions to manage API queries in RDS and S3 buckets.
- Led policy and technical research on AI/LLM models to evaluate cost-effectiveness and feasibility.

EXTRACURRICULAR EXPERIENCE

Alexander Hamilton Society (AHS) Club **Berkeley, CA**
Media, Marketing, and Member Engagement Officer *September 2024 – Present*
AHS allows students to engage in national security and foreign policy through discussions and speaker events.

- Lead weekly roundtable discussions on global affairs, presenting on national security and cyberspace.
- Created event proposals, graphics, and invited D.C. experts from CSIS, Atlantic Council, and more.

BERKE1337 **Berkeley, CA**
Team Member *June 2024 – Present*
BERKE1337 is UC Berkeley's student-run cybersecurity club and CTF team (named 0ski).

- Train web security defense and red-teaming with Cross Site Scripting (XSS), stack smashing, etc.
- Tackle complex challenges on symmetric and asymmetric key cryptography and passcode cracking.

SKILLS & INTERESTS

Hard Skills: Research, Word, Excel, Google Drive, data management, data analysis, organization, formal writing.
Interests: National security, cybersecurity and ethical hacking, regression analysis, data collection/visualization.
Languages: Fluent–French and Vietnamese; Conversational–Japanese; Beginning–Russian, Korean, Chinese.
Advanced Coding Fluency: Python (Pandas, NumPy), Java, R, Scheme, SQL, MATLAB, Javascript, C(++), #).
